Clean'Brite is a powerful cleaner used on millions of feet of flooring since 1987; has safely removed heel marks, surface dirt and surface soil from any type of floor surface.

Allow Clean'Brite to air dry and the optical brighteners in Clean'Brite actually increase and enhance the existing gloss of the floor surface.

Use Clean'Brite for outstanding results on all floor finishes, ceramic tile, marble, terrazzo, vinyl tile and all makes of today's "No Wax" floors.

## Directions:

1. Sweep the floor to remove miscellaneous scraps and loose dirt.
2. Pour about 3-6 ounces of Clean'Brite into a gallon of cold tap water.
3. Squeeze out excess liquid, and sponge mop or damp mop in the usual manner.
4. Do not rinse.
5. Allow one step Clean'Brite to air dry and admire the results!

## Floor Care Professionals:

1. Clean'Brite is excellent for large area and small floor maintenance.
2. Clean'Brite is excellent for high-speed floor care; use 6 ounces per gallon of cold tap water, damp mop and allow Clean'Brite to air dry, then high speed burnish to a dramatic brighter "wet look" finish.
3. Clean'Brite is excellent for use in commercial automatic floor scrubbing machines.

Clean'Brite contains a special blend of several non-ionic surfactant cleaners that will "NOT" leave a film on the floor. Optical brighteners, fragrance and stabilizers are also contained to ensure freshness and gloss. Contains no phosphorus and is 100% bio-degradable

## Technical Data:

Specific Gravity	1.004
Appearance	Yellow Tint
Odor	Lemon-Lime
Viscosity	< 10 CPS
PH	7.0
Total Solids	4.5%
Shelf Life	2 years (keep from freezing)
VOC	25 grams/liter
